

Coffee Maker Shelf

We received a 'Keurig Coffee Maker' from our son, so we needed a bit more counter space, so I built a shelf attached to the end of the kitchen cabinets. But the shelf needed be able to fold down and out of the way to make room for the recliner when we moved.

And so a self was purchased with a set of hinges which mounted to the side of the cabinets, plus an aluminum channel and another hinge to support the shelf. That's it, worked out just find.
