Bloomington Park is one of several public use areas managed by the U.S. Army Corps of Engineers at Clinton Lake. Cedar Ridge, Walnut, and Hickory are the main campgrounds in this park. There are approximately 400 campsites available. All visitors who desire to camp overnight must register at the park attendant station located at the entrance to the camping areas. Shelters and group camp areas are available.

PLEASE OBSERVE

To help make everyone's stay a pleasurable and enjoyable experience, we ask that you observe the following rules, which are excerpts from the pamphlet, "Rules and Regulations – Governing Public Use of Corps of Engineers Water Resources Development Projects" (EP 1165-2-316). Visitors are encouraged to read the regulations in their entirety.

- Camping is allowed at designated sites only.
- Camping is limited to 14 consecutive days.
- Quiet hours are from 10:00 p.m. to 6:00 a.m. For emergencies, call 911.
- Please keep a clean campsite during occupancy and upon departure.
- Trash bags are available at the park attendant station for registered campers. Please deposit bags in dumpsters.
- You may pick up dead timber, lying on the ground, for firewood, but please do not cut any standing trees or brush.
- If you would like to have a ground fire, please pick a site that has a metal fire ring provided. All ground fires must be confined to these fire rings.
- All vehicles must remain on roadways. When parking vehicles, keep at least two wheels on the roadway or camp pad.
- Report theft, loss, accident, or disturbance to Park Rangers or gate attendants.
- Beer "kegs" are not allowed in the campgrounds.
- Alcohol use is not permitted at the beach and swim area.

TORNADO TIPS

Always stay informed. Tune into:
KLWN AM 1320 (Lawrence)
WIBW AM 580 (Topeka)

- In the campground, go to the nearest brick shower building or restroom.
- In mobile homes or vehicles, leave them and go to a substantial structure. If there is no shelter nearby, lie flat in the nearest ditch, ravine, or culvert with your hands shielding your head.
- If threatening weather approaches while you are out in the boat, put on PFD's, seat passengers on the bottom of the boat near the center, reduce speed, and head into waves at a slight angle. Watch for floating debris as you head for the nearest shore.

Your Safety Our Concern

Walnut

Sites 203-299

Electric sites: 260 through 299

Non-electric sites: 203 through 259

No on-pad water hook-ups (except 289, 291, 293, 295, 297 and 299)
